CHESTER MINING HISTORY AND VALUES

A brief history of the titanium fiber market trend:

At the beginning of 2005, the demand for titanium fiber material began to grow exponentially, especially with the advent of new orders for wind turbines reinforced with titanium fibers and aircraft with massive use of titanium in construction.

In 2008, we noticed a sharp surge in global demand for various titanium fiber products around the world, in contrast to significantly low volumes of supplies. At first, we expected a market correction, but this did not happen, so over the next 3 years our analysis concluded that the lack of supply was not due to a shortage of land resources, but to a shortage of new fiber producers and low processing efforts.

Having gained a deeper understanding of the nature of this issue and established appropriate "internal connections", we have been able to observe short-term (and long-term) transactions since then. At the beginning of 2013, the number of new monthly supply contracts nearly doubled.

In the last couple of years, Titanium shipments continued to grow by 4-5 million kg (per year). Currently, manufacturers are still unable to cope with the growing demand, leaving the tendency to "buy" titanium in a state of constant growth.

Background on Chester Mining Trading and our core values:

In fact, we are a group of entrepreneurs with a passion for effective business models, where our time and energy can also be used to achieve good goals and obtain high passive profits. Over the past decade, various industries have been involved in our fields of activity, which has helped to hone our experience.

Among them, some are useful: logistics of import/export of basic goods and electronics (a couple of us have more than 12 years of experience in this field), the development of a private platform for cross-asset trading, and monitoring several applications of "money management".

The path we decided to go was very difficult, but despite the difficulties, the sense of accomplishment always made us look for new ways and keep open. Our most important asset is time, and we protect it at all costs, it is reflected in all our business strategies and investment practices up to this day, including the site "Chester Mining", which was created with passion and efficiency.

MORE ABOUT CHESTER MINING

WHAT BUSINESS WE DO?

Our main business is resale and logistics in trade related to a mineral called titanium. It allows us to make significant profits in a short time. This is because our best titanium stocks include titanium alloy for chemical and industrial productions. Titanium is used in gliders that are longer than 100 feet, as well as in nanomaterials that are 100 times thinner than a human hair. In any given situation, there are interesting and long-term opportunities for investors who are looking for access to the titanium market.

HOW TO START?

We strive to provide our members with full efficiency in the use of our resources, as well as make additional efforts to provide each participant with the best service. For more information, you can refer to our F.A.Q section or contact us through our ["contact us"](#) page.

OUR KEY OBJECTIVE

Our key objective is to constantly increase the mutual return on investment through CHESTER MINING. To achieve that goal, we're prepared to deliver you daily returns when you invest in our packages. View our [Investment Plans](#).

Opening an Account with us is completely free and fully confidential, with our strict security protocols to validate transactions authenticity & and safeguard sensitive info.

FREQUENTLY ASKED QUESTIONS

Where can I track the progress of my investments (profit)?

Please log in to your account and check the "INTEREST EARNINGS" tab to the "STATISTICS" page. Your account is set up in such a way as to keep the history of all accrued interest, deposits, withdrawals, and other actions.

When will I get my profit?

According to our plan, the interest will be automatically credited to your balance once your plan expires from the moment of making a deposit.

How often is my account statistics updated?

our account is automatically updated in real-time mode, within 24 hours, and you can access your entire account history at any time.

How to change the details of my payment systems (e-wallets)?

Unless you specified payment details during the registration, you can enter your account, and specify them to the "PROFILE" page. To change the existing details, contact support, specify "Profile change" as the message subject, and indicate particularly what you'd like to change and why. Besides, be sure to indicate the payment account from which you've already deposited because we are not able to change accounts to those from which you haven't previously deposited funds.

What is the minimum and maximum amount of the investment (deposit)?

At the moment, we've got a rather low barrier to entry which is equal to \$50, while there is no maximum allowed deposit amount.
